Department of Agricultural Engineering

Programme: Seminar on Funding and Investment Strategies: Navigating the Startup Ecosystem

Venue: Conference hall

Date: 03.03.2023

No of Students Participated: 38

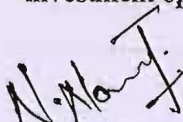

Resource Person: Dr.K.Elangovan \ Professor\ Sir Issac Newton College of Engineering and Technology, Nagapattinam.

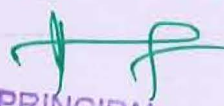

Report of the Programme

The seminar on "Funding and Investment Strategies: Navigating the Start-up Ecosystem" provided invaluable insights into the critical financial aspects essential for the success of emerging businesses. Industry experts and seasoned entrepreneurs discussed various funding options, from bootstrapping and angel investing to venture capital and crowd funding. The seminar emphasized the importance of understanding the investor landscape, building a robust business model, and crafting compelling pitches to attract potential investors. Practical advice on managing finances, scaling operations, and leveraging strategic partnerships was also shared, highlighting the nuances of securing and utilizing funds effectively. Attendees gained a comprehensive understanding of the financial tools and strategies necessary to navigate the complex startup ecosystem, positioning them for sustainable growth and success. The interactive sessions and real-world case studies provided a practical framework for aspiring entrepreneurs to develop a clear financial roadmap for their ventures.

Outcome of the Programme:

- Students will gain a comprehensive understanding of various funding mechanisms available for start-ups, including venture capital, angel investing, crowd funding, and government grants.
- Students will have the opportunity to network with industry experts, investors, and fellow entrepreneurs, who can lead to potential mentorship, partnerships, and investment opportunities.
